

Hong Kong Residents in Canada Seeking Assistance

In response to the local government's appeal for concerted efforts to contain the spread of COVID-19, the Hong Kong Economic and Trade Office (Toronto) is closed temporarily. You may reach us via the following channels:

Toronto: Phone: (416) 924-5544 or Email: info@hketotoronto.gov.hk

Vancouver: Phone: (604) 331-1300 or Email: info_vancouver@hketotoronto.gov.hk

For urgent assistance outside office hours, Hong Kong residents in Canada may call the 24-hour hotline of the Assistance to Hong Kong Residents Unit of the Immigration Department in Hong Kong at +852 1868. In the event that Hong Kong residents who need assistance are not able to call the hotline due to the service settings of their telecommunication services operators or other reasons, they may try adding "0000" after entering "1868". Hong Kong residents in Canada in need of consular assistance may contact the Chinese Embassy or Consulate Offices (<http://ca.china-embassy.org/eng/zlgj/>).

Entry Requirements to Hong Kong from Canada

Currently, except for Hong Kong residents, non-Hong Kong residents will be denied entry to Hong Kong if they have stayed in Taiwan, any Group A1, A2, B or C specified places on the day of arrival at Hong Kong or during the 14 days before that day. These temporary restrictions will remain in force until further notice. Please refer to the webpage <https://www.coronavirus.gov.hk/eng/inbound-travel.html> for details.

Starting from 00.00 a.m. on December 25, 2020 (HK time), travellers from Canada are required to present test report, in English or Chinese, showing a negative COVID-19 nucleic acid test administered within 72 hours of the scheduled time of departure, before boarding the flight. They are required to present documentary proof in English to show that the laboratory or healthcare institution is recognized/ approved/ ISO15189 accredited. The same requirements apply to a Hong Kong resident who has stayed in Canada during the 14 days before boarding the flight to Hong Kong. Please refer to the webpage <https://www.coronavirus.gov.hk/eng/high-risk-places.html> and <https://www.info.gov.hk/gia/general/202012/18/P2020121800522.htm?fontSize=1> for details.

Testing in Canada

Whilst this office is not in a position to recommend or endorse any private laboratory or healthcare institution, it is understood that some healthcare institutions have indicated that they may be able to provide the testing service that meets the requirements. You may also find a list of laboratories that are accredited to ISO 15189 by the Standards Council of Canada (SCC), one of the organisations to accredit laboratories in Canada, at <https://www.scc.ca/en/search/laboratories/15189>.

The lists are provided only for general reference to assist Hong Kong residents with their research for providers of the testing service. They are by no means exhaustive, and are subject to change at any time as availability of service by laboratories and healthcare institutions is market driven. You will have to contact individual service providers for further information on whether they are providing COVID-19 testing. None of the service providers listed should be construed as providers endorsed or recommended by our office.

Quarantine Requirements in Hong Kong

Starting from June 30, people arriving at Hong Kong who have only stayed in Group B or Group C specified places or Taiwan on the day of arrival or the 14 days before that day will be allowed a shortened compulsory quarantine period of seven days at designated quarantine hotels if they fulfil three required conditions.

They must be fully vaccinated with a vaccination record, obtain a negative nucleic acid test result during the test-and-hold period upon arrival, and possess positive result proof of a recognised serology antibody test conducted within the past three months. They are also required to take two nucleic acid tests during the quarantine period, followed by a seven-day self-monitoring period and compulsory testing on the 12th, 16th and 19th days of arrival. The relevant specifications will remain effective until further notice. Please refer to the webpage <https://www.coronavirus.gov.hk/eng/inbound-travel.html> for details.

For more information about the COVID-19 situation in Hong Kong, please refer to the **information** uploaded onto the "COVID-19 Thematic Website" (www.coronavirus.gov.hk).
